

IPSAM2020

BELFAST

29 JUNE - 01 JULY

Venues:

AFBI Newforge

AFBI Crossnacreevy

QUB Biological Sciences

This year the Irish Plant Scientists' Association Meeting (IPSAM) will welcome delegates to Belfast. The meeting will be hosted by Queen's University Belfast and the Agri-Food and Biosciences Institute (AFBI).

The Island of Ireland has a vibrant and wide-ranging community of researchers in the plant sciences, phytopathology, plant genetics and genomics, ecology, plant phenology, horticulture, forestry, soil and rhizosphere science. This ranges from fundamental through to applied research, and the title of this year's meeting is **Plant Our Future**.

Key Themes

Pathology | Phenotyping | Plant Pests | Phenology | Varieties
Sustainable Farming Practices | Nutrient Cycling | Plant & Soil
